### EXECUTIVE APPOINTMENT

The Company is pleased to advise that it has appointed Mr Warwick Dowse as General Manager. Mr Dowse brings to the Company significant regulatory and commercial experience in the agrochemical markets which will be applied particularly to the continued research and development and subsequent commercialization initiatives of AP778, the Company's natural termiticide product, as well as managing other products within the Company's portfolio.

AP778 is now at a stage where specific regulatory and commercial strategies can be initiated following successful ongoing trials undertaken over the past 2 years.

Mr Dowse has previously held roles as General Manager of Griffin Corporation Australia Pty Ltd, Business Manager with Crop Care Australasia Pty Ltd, a subsidiary of Orica Ltd and Managing Director of Tradewyns Pty Ltd. With respect to Griffin Corporation and Crop Care, Mr Dowse was successful in managing the life cycle of agricultural products from the research and development stage into actual market commercialisation and distribution. Mr Dowse has an excellent understanding of the Australian and International agrochemical regulatory requirements and has established contacts with recognised regulatory consultants which will be beneficial to the Company.

The Board believes the appointment of Mr Dowse will enhance both the focus of the Company's R&D program for AP778 such that it complies with all regulatory requirements, and the development of commercialisation initiatives for AP778.

In addition, the Company advises its acting General Manager, Mr Matthew Kealley has resigned his position to pursue other career interests. The Board wishes to thank Mr Kealley for his valued contribution to the company.

Yours sincerely
